

Dear Members

I have just completed my first year as AATA Vice President and I have had a great time being part of the AATA executive. It has been incredible getting to see the ins and outs of how our association works.

We have had some change within our Marketing Committee. Our prior Marketing Chair, Brandon Thome, moved to Abbotsford this past fall. Nicole Lemke was brought in to the position and we are excited to have her on board. Also, Dexter Nelson has taken over as the AATA representative with the Sport Medicine Council of Alberta. We greatly appreciate the time they take to be involved with our association.

I have recently been focused on planning the AGM. This year we will be offering a taping session from Andover. Also, Dr. Martin Mrazik will be coming on behalf of the SMCA to do a presentation on Sports Concussions. We will also be continuing with Research Day presentations.

In conclusion, I have enjoyed being a part of the AATA Executive. I will not be continuing in the Vice President position, but look forward to seeing the association grow. We are always looking for help in many aspects from our members and the more involvement we have the stronger we will become as an association.

Alana Dyrland
AATA Vice President
